

Webinar and e-discussions

Key aims: To strengthen the capacity of ECD champions to advocate for ECD in the global agenda and to align advocacy efforts in the region to create a unified voice

Group lead: [Sara Dang](#)

Key outputs: Launched in 2011, this is one of the ARNEC's flagship activity, which anybody can participate virtually so long as s/he has access to the Internet. It is an hour learning session (presentation followed by a short Q&A session with interactive polling/chat functions) online on various ECCD topics of interest related to the ARNEC annual theme. It provides opportunities to learn more about a topic, share practices and thoughts, and network.

Each webinar is followed-up by an e-discussion that provides a platform for participants to discuss and elaborate on the issues further. The webinar recording, presentation documents and reference materials will be made available on the ARNEC website for reference. ARNEC will be working with the regional and global experts and actors on this.

Key dates includes:

6 May 'ECD and Peacebuilding' webinar

w/c 14 July 'Health and Nutrition in ECD'

September 'ECD in Emergencies'

November/December 'Live webcast from ARNEC Conference keynote address'
